

# HOME VISITING COMMUNITY ADVISORY BOARD

Joining together to build the foundation for healthier families.

The Home Visiting Community Advisory Board (HV CAB) is a group of providers, policymakers, and other advocates that oversees the coordination of early-childhood home visiting services to ensure quality service delivery.

HV CAB focuses on enhancing collaboration among state and community-based organizations, specifically in the home visiting field. By promoting cross-sector partnerships, HV CAB aims to reduce duplication of efforts and streamline resources. Our goal is to align strategies and advance shared objectives that ultimately improve outcomes for families and children across the state of Delaware.

**Mission Statement:** *Ensure a collaborative approach to home visiting, advancing a continuum of equitable and diverse research-informed programs that support individuals from prenatal through age 5.*

**Vision Statement:** *Pregnant women and parenting families in Delaware will have access to (voluntary) high-quality early-childhood home visiting services. These services are part of a comprehensive early-childhood education system that provides support, encouragement, and needed resources — including system navigation — so that children and families can thrive.*

## KEY STAKEHOLDERS OF HV CAB:

- The Division of Public Health (DPH), Maternal and Child Health Bureau
- The Office of the Child Advocate
